Hilton
FOR THE STAY™

Travel with Purpose

Easy Ways to Be a More Sustainable Traveler

At Hilton, we believe every trip can make a positive impact. Here are easy ways you can help protect our planet, support local communities, and enrich your travel experience, both before you leave home and throughout your stay.

Before You Travel

Use Digital Key
Check in digitally to skip plastic keycards and the line at the front desk. Download our Hilton Honors App for free via the App Store for iOS or Google Play for Android.

Pack lighter
Pack light to reduce airline emissions. Every pound counts. Leave that third pair of shoes at home!

Plan meals in advance
Review menus and choose plant-based or locally sourced menu items when available.

Getting Around

Share the ride
Carpool with colleagues to and from the airport and to other meetings and destinations.

Use public transit or hotel shuttles
Many destinations offer ways to explore while lowering your carbon footprint.

Consider an electric vehicle
If renting a car, choosing an EV helps reduce greenhouse gas emissions and air pollution.

During Your Stay

Refill, don't toss
Bring and refill a reusable water bottle and take advantage of hydration stations throughout the hotel.

Recycle and compost when possible
Choosing the right bin helps reduce waste and keep materials out of landfills.

Adjust your room temperature
Turn off the heat or A/C in the room when leaving for the day.

Set out used soap for housekeeping to recycle
In 2024, Hilton's recycling program sterilized and repurposed nearly 3 million used bars of soap, distributing them to communities in need around the world.

Choose full-size amenities
Skip travel-sized toiletries and use the premium, full-size amenities instead.

Make a Positive Impact

Support local communities
Explore neighborhood businesses, choose locally made products, or participate in volunteer opportunities when available.

Experience responsibly
Seek out sustainable tours, outdoor activities, and cultural experiences that protect your destinations.

Remember, every small choice adds up.
Thank you for helping us Travel with Purpose.
